

Industry Guidance – Half day training sessions

The FSA have recently confirmed Industry Guidance status on the BIBA-led market solution in respect of transparency, disclosure and conflicts of interest in the commercial insurance sector.

To help members gain a better understanding of what the industry guidance contains and what steps they can take to comply better with the current FSA rules and principles, BIBA have organised a series of half day training sessions around the UK.

Competitively priced for BIBA Members at £50.00 per delegate (Non BIBA members £75.00 per delegate) and delivered by BIBA's Compliance Initiative partners Branko Ltd and RWA Compliance Services Ltd, these events are likely to prove very popular and early booking is strongly recommended.
