BIBA’s 2011 activity and achievements
BIBA’s key achievements

A few examples of how BIBA has promoted, protected and represented your interests in 2011:

- Presented Financial Services Compensation Scheme (FSCS) petition of nearly 7,000 member signatures to the House of Commons and achieved review to unfair FSCS funding model
- Launched BIBA’s Future of Regulation research in the House of Commons outlining to political stakeholders the disproportionate cost of regulation to UK brokers and identifying a contribution of 1% GDP from brokers
- Produced guidance on Bribery Act, PI risk for staff, application fraud and the change of laws for the use of cookies to help members mitigate risk of non-compliance
- BIBA’s ‘Find a Broker’ service achieved Government recognition as the solution for signposting to help customers find insurance from brokers. It also won the Social Initiative Award from the Trade Association Forum
- Relaunched BIBA’s website as a central resource for members, along with its new ‘Find a Broker’ search to promote insurance brokers to customers
- Held BIBA’s first Parliamentary reception at the House of Commons representing members to 138 attendees including 25 key government stakeholders, 62 members and 15 journalists
- Developed customer guides on flood, business continuity and motor insurance with government, Cabinet Office and Northern Ireland Consumer Council to help customers and promote brokers
- Successfully launched and progressed BIBA’s 2011 Manifesto key lobbying issues
- Achieved commission for brokers as part of government ECGD initiative and formed Trade Risk Focus Group
- Represented members in Europe on a range of issues, including the Insurance Mediation Directive (IMD) revision, the Insurance Guarantee Scheme Directive, gender and comparison sites
- Achieved new legislation for Continuous Insurance Enforcement, making roads safer and reducing costs
- Achieved new FSA guidelines on regulation of comparison sites and called for a level playing field for members
- Lobbied for regulatory reform through meetings with key policymakers, working groups, Treasury and FSA consultations
- Progressed specific regulation issues such as Threshold Condition Four: adequate resources; and client money
- Represented members five times in the House of Commons by presenting on key manifesto issues

BIBA has kept the FSCS issue to the fore and kept parliamentarians informed about the challenges to the sector. It’s difficult to see what else they could be doing away from taking over the FSA.

BIBA really is the voice of the broking sector.
