

Take steps to a greener future...

The **AXA Future Risks Report 2022** highlighted that climate change is now the number one concern for experts around the world.

That's why we've created the AXA Climate School – an online learning experience explaining climate change, and actions that can be taken now to reduce its impact.

Four free training modules:

The great climate system

What is climate change?

The overexploitation of natural resources

Why is this a major threat?

Acting on your company's carbon footprint

What can your company do?

Acting on your own footprint

What can you do?

Register now and start learning

Each bite-size module features short engaging videos, with quizzes to check understanding.

Registration to the AXA Climate School is quick and simple.

Start learning now and take steps to a greener future.
