

Travel Insurance Portfolio Update

6th August 2026

Exciting Enhancements to Our Travel Insurance Range

At Jackson Lee, we're committed to ensuring our travel insurance portfolio remains competitive, relevant and delivers exceptional value for both you and your customers. We're pleased to share a number of exciting enhancements across our range.

All our travel policies now include access to the **Air Doctor** service free of charge, providing customers with 24/7 access via their mobile phone to a medical professional should they need to seek advice relating to a medical issue whilst travelling.

Holiday+ – More Included as Standard

Our flagship **Holiday+** policy has been enhanced to provide even greater value.

Benefits now provided as standard include:

- **Cruise cover** – no need to add this separately.
- **Pet care cover** – offering additional reassurance for customers leaving pets at home.

Holiday+ also continues to offer a comprehensive range of optional extras, including **Business Equipment Cover**, making it an ideal choice for customers travelling overseas for conferences, exhibitions or business meetings.

Adventure Travel – A New Name for an Expanded Offering

Our **Longer Stay** policy has been renamed **Adventure Travel** to better reflect the customers it is designed to protect. Adventure Travel offers:

- Cover for trips of up to **540 days**.
- A wide range of adventure activities included as standard.
- **Three new activity packs** for customers seeking even more adventurous experiences.

The policy is ideal for a diverse range of travellers, including:

- Gap year travellers
 - Those working overseas
 - Volunteers
 - Conservation project participants
 - Long-term independent travellers
-

Sports+ – Enhanced Protection for Competitors

We've also strengthened our **Sports+** policy, which already includes cover for both **training and competition**.

A valuable new enhancement is the **reimbursement of event entry fees** if a trip has to be cancelled, providing additional financial protection for customers participating in organised sporting events.

Helping You Win More Business

These improvements further strengthen the Jackson Lee travel insurance portfolio, giving you an even broader range of solutions for every type of traveller—from budget holidaymakers to adventure seekers and competitive athletes.

If you'd like further information on any of these enhancements or would like support in promoting the updated range to your customers, please get in touch with your usual Jackson Lee contact.
